

**GLOBAL  
INNOVATION HUB**  
for Improving Value in Health

# INTRODUCTION TO THE G20 GLOBAL INNOVATION HUB

<https://g20hub.org/>

February 2023

# Launched during the Saudi G20 Presidency, The Hub was established to accelerate a global transformation towards VBHC

The Global Innovation Hub for Improving Value in Health emerged from the G20 Health Working Group in 2020 as an outcome of the priority topic “Improving Value in Health Systems”

The Hub was established to **enable sharing of best practice and design of new VBHC approaches** that can be used by health systems to become learning **health systems that are resilient and responsive**, and achieve sustainable universal health coverage

## Membership

The Hub is membered by 15 members states and 3 international organizations

# GLOBAL INNOVATION HUB

for Improving Value in Health

## OUR VISION AND MISSION

### The Hub's Vision

21st century health, delivered through value-based care

### Mission

Accelerating global transformation towards value-based care through knowledge, experience, and collaboration

## WE VALUE

### Impact

- Our work will have **clear outcomes**
- We will deliver at **pace**
